

ERP Simulation 6 November 2024 Results:

A: Fire at Airfield

ERP SSN Person in Control:

1. Mike Koster
2. Bernd Dolba
3. Jurgen Depil

Mike took control of the situation

- Mia contacted Emergency services:
 - Local Ambulance
 - Local NamPol office
 - Nearest Registered Medical Partitioner
 - SSN Chairperson: Gysbert van der Westhuyzen

Ambrosious provided medical assistance to one injured hand.

Pedri extinguished the fire.

Jurgen set the parameter to secure the scene to avoid other injuries by keeping unnecessary individuals away.

After the fact, Mike reported the incident to the NCAA and SSN

-End of Simulation-

B: Injury close to/on base

- Pedri will provide first aid
- Mia will contact the necessary services

-End of Simulation-

C: Injury off base

- Aru Game Lodges will provide immediate First Aid services
- Mia will contact the necessary services

-End of Simulation-

D: Incase of Death

- Mia will call NamPol
- Mike will inform the next of kin
- No flight will be implemented for 48 Hours for adequate time for dealing with consequential stress

-End of Simulation-

ERP Simulation 6 November 2024 Results cont:

Emergency contacts as provided per list at Hanger and Lodge.

Media Liason: Gysbert vd Westhuysen

Emergency phases:

1. Uncertainty - Mike will take control of this phase
2. Alert phase - Mike will take control of this phase
3. Destress phase - Gysbert/Pedri will take control of this phase

Conclusions:

All simulations was well controlled, we as Veronica Flying are confident that we will react well in a real live situation.
